# CableShield

INDUSTRIAL

By

NAR ELECTRICAL GROUP LTD

---

CableShield Industrial represents a further step in the development of NAR Electrical Group Ltd, building on the foundations of the CableShield Cable Management range and expanding into a robust portfolio of industrial plugs, sockets, and power distribution products for demanding environments.

Built with proven manufacturing expertise and engineered for reliability, the range delivers consistent performance, full compliance, and long-term durability. Supported by UK stockholding, CableShield Industrial ensures strong availability, competitive pricing, and fast, reliable delivery

# IP Plugs & Connectors

CableShield's range of IP54 and IP67 BS4343 plugs and connectors is built for reliable performance in industrial environments. The IP54 options protect against dust and splashes, while the IP67 range offers full dust protection and resistance to water immersion. Designed for durability and secure connections, they ensure safe and consistent power delivery across a variety of applications.

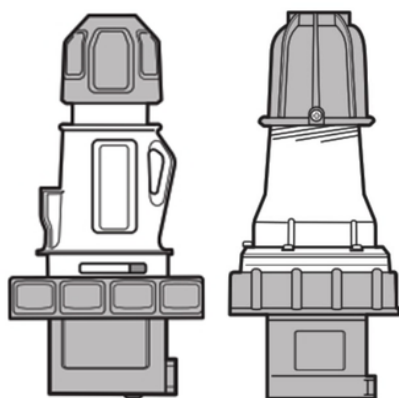

## IP Plugs

### IP54 BS4343 Plugs

| Part Number  | Yellow<br>110V | Blue<br>240V | Red<br>415V | Part Description             | Pack Size |
|--------------|----------------|--------------|-------------|------------------------------|-----------|
| CSP110162PE  | X              |              |             | IP54 Plug 110V 2P + E 4h 16A | 1         |
| CSP240162PE  |                | X            |             | IP54 Plug 240V 2P + E 6h 16A | 1         |

## Surface Appliance inlets, Surface Sockets & Interlocked Sockets

CableShield's angled surface appliance inlets, surface sockets, and interlocked sockets are designed for safe and efficient power distribution in industrial settings. The angled inlets provide practical access in tight spaces, while surface sockets offer durable, easy-to-install solutions for everyday use. Interlocked sockets add an extra layer of safety by preventing operation under load, ensuring secure and reliable performance across a range of applications.

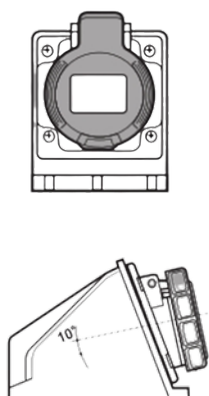

## IP Surface Sockets

### IP54 Surface Sockets

## Caravan Units, Isolators & Horizontal Interlocked Switches

CableShield's caravan units, isolators, and horizontal interlocked switches provide reliable and safe power control. Caravan units offer convenient connections for mobile use, isolators ensure safe disconnection, and interlocked switches prevent operation under load for added protection.

### IP54 & IP67 Switched Interlocked Sockets Horizontal

# Terms and Conditions

## Summary Trading Terms & Conditions

These Summary Trading Terms & Conditions apply to all sales of goods by NAR Electrical Group Ltd (the Supplier) to business customers (the Customer). Full Terms & Conditions are available on request and shall prevail in the event of any conflict.

## Orders & Dispatch

Orders placed before 3:00pm (UK time) on a business day for stocked items will normally be dispatched the same day, subject to stock availability, operational capacity and carrier cut-off times. Orders placed after this time, or on non-business days, will be processed on the next business day. Same-day dispatch is not guaranteed.

## Delivery & Carriage

Carriage is included on orders with a net goods value over £300 + VAT for delivery within England, Wales, mainland Scotland and Northern Ireland. Orders below the applicable threshold will incur a standard carriage charge of £20.00 + VAT. For deliveries to the Scottish Highlands & Islands, carriage is included on orders over £500 + VAT. Orders below the applicable threshold will incur a standard carriage charge of £40.00 + VAT. Channel Islands and Republic of Ireland deliveries are subject to quoted carriage charges. Delivery dates and times are estimates only. Timed, AM, next-day or specific-day deliveries are not guaranteed unless expressly agreed in writing and may incur additional charges.

## Part Deliveries & Back Orders

The Supplier reserves the right to deliver goods in part shipments. Items not available at the time of dispatch may be placed on back order and supplied when available. Each delivery may be invoiced separately.

## Inspection, Shortages & Damage

Goods must be checked on delivery. Any shortages, visible damage or incorrect deliveries must be reported in writing within 48 hours of delivery. Claims reported outside this timeframe may not be accepted.

## Failure to Take Delivery

If delivery is not accepted, the Supplier may store the goods, arrange redelivery, or recover associated costs including storage, transport and insurance.

## Risk & Title

Risk in the goods passes to the Customer upon delivery or attempted delivery. Title remains with the Supplier until payment is received in full.

## Payment

Unless otherwise agreed in writing, payment terms are 30 days from invoice date. Late payments may result in suspension of supply and interest being charged.
