CABLE MANAGEMENT

By

NAR ELECTRICAL GROUP LTD

NAR Electrical Group Ltd is a UK-based electrical distribution and import business with many years of experience supplying the UK market. The business operates a long-standing sourcing operation in India, working closely with established manufacturing partners.

We are excited to introduce our new range of plastic cable management products – the CableShield range. Designed for the UK electrical industry, CableShield has been developed to meet the expectations of today's electrical installation environment, where quality, consistency, availability, and value for money are essential.

CableShield is supported by a UK office and warehousing, alongside an experienced nationwide team of sales agents, providing comprehensive coverage and local support to the distributor network.

The initial launch centres on a high-quality, competitively priced range of plastic conduit and accessories. This establishes the core CableShield platform and will be rapidly followed by the rollout of mini and maxi trunking and associated accessories, expanding the range in line with a structured product development roadmap.

We hope you will enjoy reading our initial catalogue, and we look forward to working closely with both existing and new customers as the CableShield range is introduced, supporting its continued development and adoption across the UK electrical distribution market.

Switch  your potential

Our Manufacturing Partner – Precision Pipes

CableShield is manufactured in partnership with Precision Pipes, an established piping systems manufacturer founded in 1978, with a strong focus on quality, consistency and technical performance across electrical and infrastructure applications.

With over four decades of experience, Precision Pipes has built its reputation through the development of electrical piping systems including uPVC round conduit, GI & M.S. conduit pipes, mini and maxi trunking, panel trunking, corrugated flexible conduit and fittings — many of these product categories will form the foundation of the CableShield range moving forward.

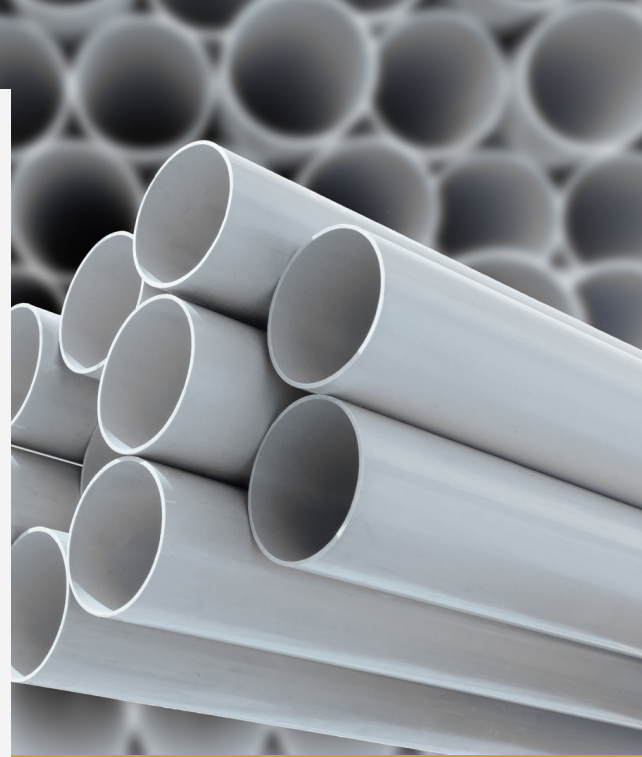

Precision operates large-scale manufacturing facilities in Daman, Bengaluru and Haridwar. All products are manufactured under robust quality systems and comply with ISO 9001:2015, alongside all relevant UK standards.

Through long-standing sourcing and manufacturing relationships in India, NAR Electrical Group Ltd is directly involved in product specification and ongoing development of the CableShield range, ensuring it is engineered specifically for the requirements of the UK electrical market.

Round Conduit & Fittings

CableShield uPVC rigid round conduit and fittings are manufactured from high quality unplasticised polyvinyl chloride (uPVC) and produced in accordance with BS EN 61386-21. Ensuring reliable mechanical performance, safe installation practices, and long-term durability. Our conduit system is designed for use in surface and internal installations

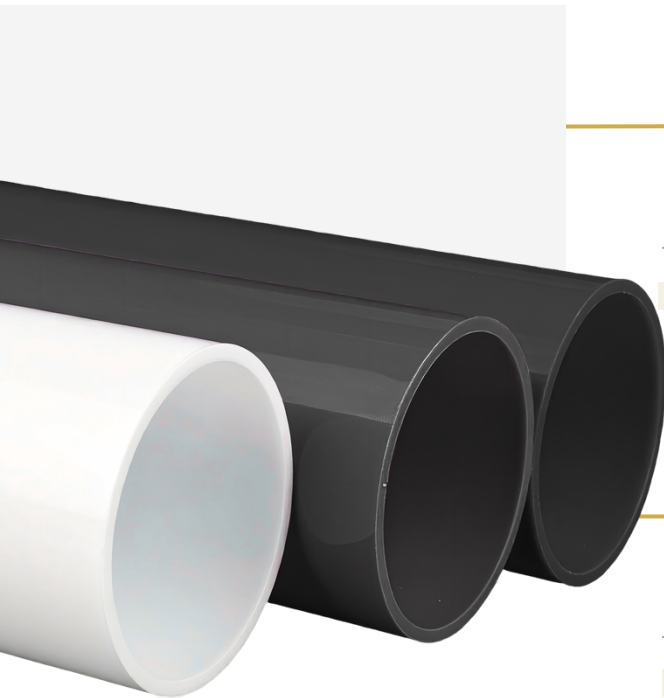

We put quality, reliability, and value for money at the core of everything we do, offering a range of dependable solutions that deliver consistent performance on site.

- Material: Virgin uPVC Compound
- Colour: Black & White
- Temperature: -5°C / +60°C
- Sizes: 20 & 25mm

uPVC Conduit

Round uPVC (White & Black)

Terms and Conditions

Summary Trading Terms & Conditions

These Summary Trading Terms & Conditions apply to all sales of goods by NAR Electrical Group Ltd (the Supplier) to business customers (the Customer). Full Terms & Conditions are available on request and shall prevail in the event of any conflict.

Orders & Dispatch

Orders placed before 3:00pm (UK time) on a business day for stocked items will normally be dispatched the same day, subject to stock availability, operational capacity and carrier cut-off times. Orders placed after this time, or on non-business days, will be processed on the next business day. Same-day dispatch is not guaranteed.

Delivery & Carriage

Carriage is included on orders with a net goods value over £300 + VAT for delivery within England, Wales, mainland Scotland and Northern Ireland. For deliveries to the Scottish Highlands & Islands, carriage is included on orders over £500 + VAT. Orders below the applicable threshold will incur a standard carriage charge of £40.00 + VAT. Channel Islands and Republic of Ireland deliveries are subject to quoted carriage charges. Delivery dates and times are estimates only. Timed, AM, next-day or specific-day deliveries are not guaranteed unless expressly agreed in writing and may incur additional charges.

Part Deliveries & Back Orders

The Supplier reserves the right to deliver goods in part shipments. Items not available at the time of dispatch may be placed on back order and supplied when available. Each delivery may be invoiced separately.

Inspection, Shortages & Damage

Goods must be checked on delivery. Any shortages, visible damage or incorrect deliveries must be reported in writing within 48 hours of delivery. Claims reported outside this timeframe may not be accepted.

Failure to Take Delivery

If delivery is not accepted, the Supplier may store the goods, arrange redelivery, or recover associated costs including storage, transport and insurance.

Risk & Title

Risk in the goods passes to the Customer upon delivery or attempted delivery. Title remains with the Supplier until payment is received in full.

Payment

Unless otherwise agreed in writing, payment terms are 30 days from invoice date. Late payments may result in suspension of supply and interest being charged.
